

Jigsaw Puzzle – Krabbers - © 2015

C
To keep myself out of trouble
F
I bought myself a jigsaw puzzle
C G
Just ten pence from a local charity shop

C
On the top was a painting of ducks and geeses
F
A puzzle of one thousand pieces
C G C
Well at least that's what was printed on the box

C
I could not wait to get it started
F
So I spread it all out across the carpet
C G
Finding all four corners straight away

C
I separated the blue bits for the sky
F
And all the straight bits for the sides
C G C
Well I thought that's me sorted for the day

C
I found some feathers, wings and feet
F
And I found some flowers and couple of beaks
C G
And water flowing gently over rocks

C
I worked right through till it was late
F
And the puzzle started taking shape
C G C
Exactly like the picture on the box

C
Almost done, just one more bit
F
But I could not find no sign of it
C G
The last piece lost, a puzzlers greatest fear

Then I ^C found a note on the back of the box

"Have fun but please note one bit lost"

With ^C head in ^G hands I ^C almost shed a tear

Oh ^F why is it always the last ^C piece missing

Why ^F can you not find it from the ^G start

This ^F is a jigsaw ^C puzzlers dilemma

This ^F sort of thing can break a grown man's ^G heart

Well ^C I wasn't going to let this beat me

So ^F I boxed it up and I sealed it neatly

Took ^C it back to the shop with my ^G receipt

^C would they check the contents, I could not risk it

So ^F I made the last piece with a rich tea biscuit

Got ^C my ten pence back and ^G legged it up the ^C street
